

A photograph of a white wall featuring four distinct doors: orange, blue, green, and red. Above each door is a small, rectangular window with a mesh screen. The doors are made of wood and have various handles and latches. A semi-transparent dark grey banner is overlaid across the middle of the image, containing the text 'nmap in 5 slides' in white, lowercase letters.

nmap in 5 slides

nmap is use for ports scanning
and network exploration

basic use

nmap -O <host | network>

basic search (with OS detection)
